

“Southern has introduced a double deck cycle rack for the first time at Sutton railway station. The new 2 Tier System holds 40 cycles in the same footprint as the old rack – doubling the amount of parking spaces, is covered by a canopy to keep the worst of the rain off and is covered by 24-hour CCTV. Southern’s Project Manager, Paul Best said: “We are delighted with the new rack. It’s innovative in its design and is well used by our cycling passengers and, as a result, we are now looking at more stations where this kind of facility would be of tremendous benefit to our passengers.” The new rack at Sutton was installed following comments from passengers, local authorities and user groups who contributed to the formation of Sutton’s Station Travel Plan. The plan looks at ways to encourage passengers to travel to and from the station in a more sustainable ways than the car, and ways in which overall public transport integration at the station can be enhanced. Southern has plans to extend the two-tier system to other stations on its network including Horsham and Haywards Heath.”

Now a new bike rack undisappear in our company .it is called [double-deck stackable bike rack](#) .

[Double stacking bike racks](#) are a type of bike storage solution that allows you to store two bikes in the same space as one bike. They work by hanging one bike above another, creating a compact and efficient way to store multiple bikes in a small area. Some benefits of using a double stacking bike rack include:

1. Space-saving: Double stacking bike racks can store two bikes in the same space as one bike, making them ideal for use in small garages or bike storage areas.
2. Easy Access: The bikes are stored vertically, which makes it easier to access the bikes without having to move other bikes out of the way.
3. Durable: Double stacking bike racks are usually made from strong and durable materials, such as steel, which makes them ideal for heavy-duty use.
4. Versatile: Double stacking bike racks can accommodate a variety of bike sizes and styles, making them suitable for use by families with different types of bikes.

When choosing a double stacking bike rack, consider the number of bikes you need to store, the size and weight of your bikes, and the available space in your garage or storage area. Make sure to follow the manufacturer's instructions for installation and use to ensure the safety and stability of the rack.

Features & Benefits

- Space efficient – it stores two bikes directly above each other
- Custom-made for specific sites
- Easy-to-use, safe and organized parking
- Individual racking – one bike per space
- German design and quality
- Patented gripping mechanism keeps the bike securely in place
- Mount up to 10 bikes with 5 secured above the other 5
- Freestanding design requires no anchors
- Easy assembly

- Deep wheel trays guide bike into rack
- Full-length wheel trays keep bikes upright
- Staggered bike positioning saves space and provides added clearance between bikes
- Modular design allows for easy expansion with multiple racks side by side
- Locking Stretch Rack includes solid steel lock rod
- Accepts cable locks and U-locks (locks not included)

Special:

- Capacity: 6, 8, or 10 Bikes
- Fits Tire Width: Up to 2.3" mountain bike tires
- Tray Length: 64.3"
- Required space from wall: 65"
- Minimum ceiling height: 8 Feet
- Bike Spacing: 14," 15," or 18"
- Locking rod diameter (locking version only): 0.38"
- Footprints:
- 54" x 63" holds up to 6 or 8 bikes
- 72" x 63" holds up to 8 or 10 bike

Warranty:

Lifetime Warranty
