Features & Benefits

A [bike parking bollard](#) is a type of bike rack that incorporates a bollard design, providing both bicycle parking functionality and security features. Bike parking bollards offer a secure and stable parking option for bicycles. They typically have a ring or loop attached to the top of the bollard, allowing cyclists to lock their bikes to it using a U-lock or a chain lock. This helps deter theft and provides peace of mind for cyclists when leaving their bicycles unattended. They are a space-efficient solution for bike storage. They can be installed in a row or in groups, maximizing the use of available space. By utilizing vertical space, they require minimal floor area, making them suitable for locations with limited space, such as sidewalks,

public plazas, or outside buildings.

- Space efficient - it stores 2 bikes directly .
- Custom-made for specific sites
- Easy-to-use, safe and organized parking
- Individual racking - one bike per space
- German design and quality
- Patented gripping mechanism keeps the bike securely in place
- Freestanding design requires no anchors
- Easily assembly
