Product name	Bed Truck Bike Rack for Pick up Bike Transport Trucks
Model Number.	PV-0082-01
Material	Carbon steel
Capacity	4 bicycles
Application	Outdoor bicycle parking
Packaging Details	PE foamCarbon boxPallet
N.W/G.W	11.2 kg/13
Dimension	89*76*69.3cm or customized
Colour	Black, Siver
Surface treatment	Powder coating & Polish

## **Detailed features:**

**Bed truck bike racks** are designed to transport bicycles in the bed of a pickup truck. Here are some common features of bed truck bike racks:

- 1. **Secure Mounting:** Bed truck bike racks typically have a secure mounting system to keep the bikes stable during transportation. This may include adjustable clamps or straps to fasten the bikes securely.
- 2. **Compatibility:** They are designed to fit various truck bed sizes and can be adjustable to accommodate different bike sizes and styles.
- 3. **Capacity:** Bed truck bike racks can vary in the number of bikes they can carry. Common options include racks that can carry two to four bikes, depending on the model.
- 4. **Easy Installation:** Many bed truck bike racks are designed for easy installation and removal. This allows users to quickly set up the rack when needed and remove it when not in use.
- 5. **Protection:** Some racks come with features to protect the bikes and the truck bed. This may include padded contact points to prevent scratches on the bikes and the truck.
- 6. **Versatility:** Some models may have additional features such as the ability to carry other gear or equipment alongside the bikes.
- 7. Adjustability: The racks often have adjustable features to accommodate different bike sizes and

frame styles. This adaptability ensures a secure fit for various types of bicycles.

- 8. **Durability:** Bed truck bike racks are usually constructed from durable materials such as steel or aluminum to withstand the rigors of transportation and exposure to the elements.
- 9. **Locking Mechanism:** Some models come with built-in locks or provide compatibility with cable locks to secure the bikes to the rack and help prevent theft.
- 10. **Compact Storage:** Many bed truck bike racks are designed to be compact and foldable for convenient storage when not in use.
