Tube Size	50*2.5mm
Size	35*12*90CM
Net weight	7kg
Surface treatment	Brush or mirror polish can be optional
Packing	carbon with box can be optional
MOQ	100PCS
Place of origin	Suzhou China

Benefits of Bicycle Parking Racks U Shapes Bike Racks

- **Secure bike storage:** The U-shape design allows the bike frame to be locked to the rack using a U-lock or chain, providing a secure and stable parking solution for your bike.
- **Space-saving design:** [U-shaped bike racks](#) can be installed in a variety of locations, including sidewalks, bike lanes, and parking lots. They can be spaced close together to maximize the use of available space while providing ample room for bikes to be parked securely.
- **Easy to use:** The U-shape design allows riders to easily park their bikes by simply rolling them up to the rack and locking them in place. This makes it quick and convenient to park and retrieve your bike, which can be especially helpful for commuters who need to park and rush to work or appointments.
- **Versatile:** U-shaped bike racks can accommodate a variety of bike styles and sizes, including road bikes, mountain bikes, and electric bikes. This makes them a versatile option for bike parking facilities in a range of settings, from urban centers to suburban neighborhoods.
