N.W/G.W	4.69kg/5.06kg
Packing Details	1Set/Bubble wrap/Carton
Capacity	2 bikes
Surface Treatment	Galvanized/ Powder coated
Application	Bicycle Parking Rack for outdoor
Sample Time	7-12days

Features of U Bike Rack

- A U-shaped flange [floor mount bike rack](#) is a type of bike rack designed to securely hold bicycles in place while they are not in use. The rack consists of a U-shaped frame that is anchored to the floor using flanges.
- [Outdoor bike racks](#) need to be able to withstand harsh weather conditions such as rain, snow, and extreme temperatures. Chinabikerack's u shaped flange floor mount bike racks made of materials such as galvanized steel, stainless steel, or powder-coated steel are often used for outdoor applications due to their durability and resistance to rust and corrosion.
- To further protect against weather damage, our outdoor U-shaped flange floor mount bike racks come with a weather-resistant coating that helps prevent rust, corrosion, and fading caused by exposure to sunlight.
- Equipped with additional security features to prevent theft. These may include locking mechanisms, security cables, or other anti-theft devices.
- Available in a range of sizes and capacities, so it's important to choose one that can accommodate the number of bikes you need to store.

Details:
