Finish	hot-galvanized
Packing	Normal packing
MOQ	50pcs
OEM/ODM	offered

Products Pics

Surface Treatment

1. Galvanized (Carbon Steel)

Through galvanizing as an anti-rust measure, the Bike Racks can be protected from normal use for more than 5 years outdoors

2. Powder Coating (Carbon Steel)

As a rust prevention measure by Power coating, it also has a beautiful appearance and protects the bike rack to be used outdoors for more than 5 years.

3. Polish & Brush (Stainless Steel)

Stainless steel materials can effectively prevent corrosion and rust. Through polishing and brushing, the surface of the Bike rack is smoother and more beautiful.

Note: You can choose both Galvanized and powder coating together to make the bike rack stronger anti-rust.

FAQ

1. Can you print our logo on the products?

- Yes, of course. Just give us your logo image and tell us your requirements, your logo will be perfectly shown on it.

2. Can we make our own design on the packaging?

- Sure, most of our clients are using their self-designed packaging.

3. If we can make some change to your products?

- Customization is welcomed! We are glad to assist you in making the products better and we will protect your design.

4. What's your lead time?

- Normally 7 working days for sample, 30 working days for mass production.
