BIKE RACKS

Versatile. Durable. Secure.

Whether you are an architect, developer, local council or homeowner, Embelton Bike Racks offer configurable and secure bike rack solutions, made from the most durable and hardwearing materials. We can assist you in making the most efficient use of your space with a solution that is secure and matches your specific requirements.

Our comprehensive range offers a bicycle parking solution to meet your needs.

Architectural & Construction

Our solutions are fully configurable and space efficient. We will assist you with new DA conditions and Green Star requirements to ensure your bike parking facilities are AS2890.3 compliant.

Local Government, Transport Authority & Education

We can provide you with a flexible, user-friendly and well planned solution to suit the needs of a variety of user groups, including employees, customers, residents and students.

Our Solutions

Our comprehensive range of bicycle parking solutions offers superior performance by supporting the bicycle frame rather than the wheel, thus allowing locking of the bike frame and wheels to the rack. Our solutions are:

- Vandal proof & weather resistant
- Made from the most durable materials
- Fully welded for vandal resistance
- Shipped as one piece with no assembly required
- Inclusive of all fixings
- Guaranteed for 15 years
- Compliant with AS2890.3 guidelines
- Able to earn Green Star points.

Benefits of Outdoor Steel Bike Rack Bike Stand for 5 Parking Space

Outdoor 5 [floor bike racks](#), also known as multi-level bike racks, are a type of bicycle parking facility that offers several benefits, including:

- **Space-saving:** Multi-level bike racks are designed to make the most of limited outdoor space, allowing more bikes to be parked in a smaller footprint than traditional bike racks. This can be particularly helpful in densely populated urban areas, where outdoor space is at a premium.
- **Secure bike storage:** Multi-level bike racks typically feature locking mechanisms to secure each bike in place, providing a safe and secure storage solution for bicycles. This can help deter bike theft and provide peace of mind for bike owners.

- **Convenience:** Multi-level bike racks can be accessed from both sides, making it easy for cyclists to park and retrieve their bikes quickly and efficiently. This can be especially helpful for commuters who need to park and rush to work or appointments.
- **Weather-resistant:** Outdoor 5 floor bike racks are designed to withstand a range of weather conditions, including rain, snow, and extreme temperatures. This can help protect bikes from damage and extend their lifespan.
- **Versatility:** Multi-level bike racks can accommodate a variety of bike styles and sizes, including road bikes, mountain bikes, and electric bikes. This makes them a versatile option for bike parking facilities in a range of settings, from urban centers to suburban neighborhoods.
