## Benefits of Double Decker Bike Parking

- As a [Double Decker Bike Parking System](#) is the ultimate for achieving excellent space saving bike storage whilst ensuring a usable system for your users. Offering superb usability and exceptional value it has become the bike rack of choice for any area requiring high density bike storage such as stations, universities, shopping centres, car park and offices.
- The Double Decker Bike Parking System accommodates all types of bicycles which are securely supported in the tyre channel. The rack also offers high security as both the wheels and the frame are able to be locked to the rack.
- Available in a galvanised or powder coated finish (please call us for a quote). Easy to use upper tier using stainless steel bearings for long life and minimum maintenance. The bicycle is held stable in the wheel channels with locking bars for additional security.
