

## Product Description:

Product Name	Garage Carport Sheds Storage Bike Shed Sun Shelter Outdoor
Model No.	PV-0140-01
Material	Carbon steel&polycarbonate panels
Capacity	5 -10 bikes
Application	Outdoor bike parking shelter
Packing Details	PE Foam+Carbon Box+Pallet
N.W/G.W	180kg/186kg
Dimension	L1700mm*W3600mm*H2600mm or customized
Color	Black,Sliver
Surface Treatment	Powder Coated&Polish

## Detailed Features:

A [bike shelter](#) provides a covered space that protects bicycles from harsh weather conditions such as rain, snow, UV rays, and extreme temperatures. This helps prevent damage to the bikes' components, paint, and overall longevity. They often have features that enhance security, such as locking mechanisms or the ability to attach bike locks. This helps deter theft and provides peace of mind, especially in public or high-traffic areas. Bike shelters offer a designated area for bike storage, helping to keep the surrounding space tidy and organized. They can accommodate multiple bikes, and some shelters include racks or hooks for efficient storage and organization.

Bike shelters also provide easy access to stored bicycles. Users can conveniently park and retrieve their bikes without having to navigate through obstacles or stairs, which is especially important for individuals with mobility challenges. By protecting bikes from the elements and potential damage, a bike shelter can help prolong the lifespan of bicycles. This reduces maintenance and replacement costs in the long run. It provides a safe and convenient storage option, making it more appealing for individuals to choose cycling for commuting, exercise, or recreational purposes.

- Custom-made for specific sites;
- Easy-to-use, safe and organized parking;
- Individual racking - one bike for space;

- German design and quality;
- Patented gripping mechanism keeps the bike securely in place;
- Mount up to 10 bikes with 5 secured above the other 5;
