Features:

- The [Wall Vertical Bike Hanger Rack](#) is an individual wall-mounted bicycle rack.
- It is an innovative triangular bike rack that allows the user to hang the bike vertically in a space efficient design with excellent bike support.
- The cyclist can also lock the front bike tires and frame through the cage.
- This well-designed wall mounted rack holds the bicycle securely in place. It can be installed where space is at a premium or where it is impossible to mount a rack to the ground. The bicycle can be stored vertically or horizontally, depending on the height the rack is installed at. This results in neat and organised individual parking.
