

## DESCRIPTIONS

These [ideas for outdoor bike storage](#) are great for sitting outside commercial premises, giving employees a safe, secure and tidy way of storing their bikes without creating any hazards. These bike racks feature a staggered hoop design and are wide enough to accommodate tyre sizes of up to 55mm.

This bike rack with storage is ideal for you to park and store your bikes as it can hold up to 6 bikes. If desired and needed, this steel manufacturing unit can come apart and form into individual racks for each bike. The heavy duty construction provides safety and convenience and save more space when bikes are not used. It can also protect bikes from scratches and damages from other products stored in the garage. You could park your bikes in different directions and arrange the parking more wisely.
