

Description

Product Name	Single Bike Rack Commercial Stainless Steel Security Bike Parking
Material	carbon steel
Size	830*100*1100mm
Capacity	2-10 bikes(According to customer need)
Finish	hot-galvanized
Packing	Normal packing
MOQ	50pcs
OEM/ODM	offered

Products Pics

Features:

Stainless steel [U bike rack](#) is a type of bike rack designed to securely hold bicycles in a U-shaped structure. It is typically made from [stainless steel](#), which provides durability, corrosion resistance, and a sleek appearance. Here are some advantages of a stainless steel U bike rack:

- **Durability and corrosion resistance:** Stainless steel is known for its excellent durability and resistance to corrosion. It can withstand outdoor elements, such as rain, moisture, and UV exposure, without rusting or deteriorating over time. This ensures that the U bike rack remains in good condition and maintains its functionality for an extended period.
- **Security and stability:** U-shaped bike racks offer a secure locking point for bicycles. The design allows the frame and wheel of the bike to be secured with a U-lock or cable lock, providing a reliable deterrent against theft. Stainless steel construction adds to the overall stability of the rack, ensuring that bikes are held firmly in place.
- **Versatility:** Stainless steel U bike racks can accommodate various types of bicycles, including road bikes, mountain bikes, and hybrid bikes. The U-shaped design allows for easy placement and locking of bikes, regardless of their frame size or tire width.

- **Ease of use:** U bike racks are user-friendly and straightforward to use. Bicycles can be easily parked and locked within the U-shaped structure, making it convenient for both cyclists and bike parking management.
- **Space-efficient:** U bike racks utilize vertical space efficiently by allowing bikes to be parked on both sides of the rack. This compact design is especially beneficial in areas with limited space, as it maximizes the number of bikes that can be stored in a given area.
- **Aesthetics:** Stainless steel has a clean and modern appearance that can enhance the visual appeal of bike parking areas. The sleek and polished look of the stainless steel U bike rack adds a touch of elegance and professionalism to outdoor spaces.
- **Low maintenance:** Stainless steel requires minimal maintenance, making it a practical choice for bike racks. It is resistant to stains and easy to clean, typically requiring only regular wiping to keep it looking its best.

FAQ

1.Can you print our logo on the products?

- Yes, of course. Just give us your logo image and tell us your requirements, your logo will be perfectly shown on it.

2.Can we make our own design on the packaging?

- Sure, most of our clients are using their self-designed packaging.

3.If we can make some change to your products?

- Customization is welcomed! We are glad to assist you in making the products better and we will protect your design.

4.What's your lead time?

- Normally 7 working days for sample, 30 working days for mass production.
