Features:

- [Wall bike racks](#) are typically designed to be attached to a wall, whether it's a garage, basement,

apartment, or any other suitable location. They can be installed on studs or using wall anchors, depending on the rack's design and weight capacity.

- Are an excellent option for those with limited floor space. By hanging your bike vertically on the wall, you free up valuable floor area for other uses.
- Made from durable materials like steel or aluminum to ensure stability and long-lasting performance.
- come with padding or rubberized coatings on the contact points where the bike rests. This helps prevent scratches and damage to the bike frame or wheels.
- Park 3-5 bikes vertically.

Warranty:

Quality insurance	* ISO approved
	* 1 year warranty
	* Rust-proof: 3-5 years for powder coated products and 10-15 years for galvanized products.
	* Stable orders for the North America, Europe and Australia market.
