Features

Chinabikerack's **bike rack for bus** is a device attached to the front of a bus that allows passengers to transport their bicycles while riding the bus. These racks accommodate two bicycles and are designed to hold a variety of bike types and sizes. The **bus bike rack** is easy to use and requires no special skills or tools. Passengers simply need to pull down the bike rack from its folded position on the front of the bus,

place their bike on the rack, and then secure it using the adjustable wheel clamps. Using a **bike rack on bus** is a great way for cyclists to extend their travel range by combining biking with public transportation. It also promotes a more sustainable and eco-friendly mode of transportation. Many cities and transit agencies have implemented bike rack programs on their buses to encourage cycling as a viable transportation option.

- 2 bike capacity
- Stainless & carbon steel with corrosion resistant coating
- Traditional wheel trays hold tires up to 2.25'
- Original support arm design fits 20-700c wheels
