

## Description:

Product	Double Deck Garage Cycle Rack Locker Space Saving Free Standing
Material	Stainless / Carbon steel
Model number:	PV-0136-02
To measure	W700*D1800*H2400 or custom made
Color	Black, white or customized.
N.W / G.W.	38kg/38.5kg.
Packaging details	1 set/Wrap/cardboard
Capacity	2 bicycles
Surface treatment	Galvanized/Powder coated
Application	commercial bike rack
Sampling time	7-12 days

## Features of Double Deck Cycle Locker:

- Our [double deck cycle lockers](#) are designed with several key features to ensure they are user-friendly and secure. The most notable feature is the two-tiered design, which allows bikes to be stored on both the upper and lower levels. To facilitate easy access to the upper tier, these [lockers](#) are often equipped with a lift-assist mechanism. This mechanism, which can be spring-loaded or hydraulic, helps users effortlessly lift their bikes into the upper tier, making it manageable for cyclists of all ages and physical abilities.
- Each compartment in a double-deck cycle locker is individually lockable, providing secure storage for each bicycle. These lockers can accommodate a variety of lock types, including traditional padlocks, combination locks, and more advanced electronic locks. Some models even offer integrated locking systems that users can access with a keycard or mobile app, enhancing convenience and security.
- The construction materials used in double-deck cycle lockers are chosen for their durability and resistance to weather and tampering. Galvanized steel is a common choice, offering a high level of strength and corrosion resistance. Additionally, these lockers often feature ventilation systems to prevent moisture buildup and ensure that bicycles remain dry and free from rust. Many designs also incorporate drainage systems to handle rainwater and other sources of moisture, further protecting the stored bicycles.

## Warranty:

	* ISO approved
Quality insurance	* 1 year warranty
	* Rust-proof: 3-5 years for powder coated products and 10-15 years for galvanized products.
	* Stable orders for the North America, Europe and Australia market.
