Size	15*14.8*16.2CM
Capacity	according customer space size,we can design according the size
Finish	Powder coat
Packing	bubble bags and square paper cartons
MOQ	100 sets
OEM/ODM	offered

Features:

- Ability to fold into a compact form when not in use. This allows for easy storage and transportation, making it suitable for small living spaces, apartments, or for carrying in vehicles.
- typically made of durable materials such as steel, aluminum, or strong plastics to ensure stability and support for your bike. The materials used should be able to withstand the weight of the bicycle and provide a secure hold.
- offer adjustable sizing options to accommodate different bike frame sizes and wheel diameters. This flexibility ensures compatibility with a variety of bicycles, including road bikes, mountain bikes, and even electric bikes.
- allows for quick and hassle-free assembly. They typically come with clear instructions and may require minimal tools or no tools at all.
- designed for floor or wall mounting, depending on the available space and personal preference. Floor-mounted racks typically have a sturdy base that keeps the bike upright, while wall-mounted racks can be attached to walls or other vertical surfaces.
